George Washington: Spymaster of the American Revolution—
How the Americans Outspied the British and Won the Revolutionary War

Abstract
In this lesson, students discover how the role of espionage was crucial in securing a victory against the British in the American Revolution. Based on the National Council for the Social Studies Notable Trade Book, George Washington, Spymaster—How the Americans Outspied the British and Won the Revolution by Thomas B. Allen, this lesson introduces students to various spy techniques and strategies used by the colonists under the leadership of General George Washington. Thomas B. Allen presents an intriguing and accurate account of double agents, covert operations, codes, and ciphers of the colonists’ efforts to spy on the British army during the American Revolution War. Using the Internet as a resource, students conduct historical research through the critical examination of a variety of primary sources.

Introduction

Book Summary

“There is nothing more necessary than good intelligence to frustrate a designing enemy and nothing requires greater pains to obtain.” –George Washington

It is 1775, and General George Washington faces many difficulties. His ragtag army has few muskets and fewer cannons. They lack the necessary funds to fight the world’s most powerful empire. His only hope of beating the British is to wage an invisible war—a war of espionage and deception. Thomas B. Allen presents an intriguing and accurate account of double agents, covert
operations, codes, and ciphers of the colonists’ efforts to spy on the British army during the American Revolution War.

**NCSS Standards: Theme II. Time, Continuity, and Change**

- c. compare and contrast different stories or accounts about past events, people, places, or situations, identifying how they contribute to our understanding of the past.

displayed on an overhead projector.

2. The teacher will probe the students to identify the individuals and to guess what these people had in common (they were spies).

3. The teacher will set the stage for the reading of *George Washington, Spymaster* by asking the following questions:
   a) What do you think of when you hear the word “spy”?
   b) When might a spy’s services be helpful to a government?
   c) Can you think of any examples?
   d) What sorts of information do you think a spy might provide to military leaders?
   e) Can you think of any advantages or disadvantages by relying on spies for important information?
   f) Do you think spying occurred during the American Revolution?
   g) If so, do you think their motivation to spy was honorable or dishonorable?
   h) The teacher will introduce the book *George Washington, Spymaster*, setting the stage for the reading of the chapter book.

d) What might be some disadvantages to relying on spies for important information?

2. The students may keep a reading reflection log as they read each chapter responding to the above questions.

3. **Closure:** The students will read the following quote: “There is nothing more necessary than good intelligence to frustrate a designing enemy and nothing that requires greater pains to obtain” by George Washington. Students should react to the quote and the following questions:
   a) What do you think George Washington meant by “good intelligence”?
   b) To what enemy was he referring?
   c) How might “good intelligence” frustrate the enemy? Based on the reading of the book, what are some examples of “good intelligence” the colonists obtained?
   d) Why might George Washington refer to the collection of “good intelligence” as “greater pains to obtain”? Greater than what? Can you think of any examples when the colonists obtained information through painful methods?
### Expansion

1. Using the Internet websites, the students will read and analyze primary sources of spy letters and spy stories. Within groups, students will research the following topics related to spying during the American Revolution:
   a) [Spy letters link](#)
   b) [Spy stories link](#)
   c) [Spy methods link](#)
   d) [Spy networks link](#)
   e) [Spy routes link](#)

2. Students will present their researched topic to the rest of the class in the form of a teaching poster. They may choose to add an activity or example relating to their topic. For example, the “spy letter” group may want to role play the individual writing the letter and discuss its implications.

### Assessment

- Students will act as reporters from the American Revolution and write an article describing an “alleged spy activity” the colonist used during the American Revolution. They may choose the specifics of the article based on their reading of the book and their research. Have students consider the following for the article:
  a) What were the difficulties of fighting a war in America for the British?
  b) What difficulties did the Continental Army face?
  c) In what way did General Washington display effective leadership?
  d) What was General Washington’s role as “Spymaster”?
  e) Describe a specific example of when spy techniques were used by the colonists during the war.
